

Template for

CD / DVD Label

Outer circle:

116 mm

Inner circle:

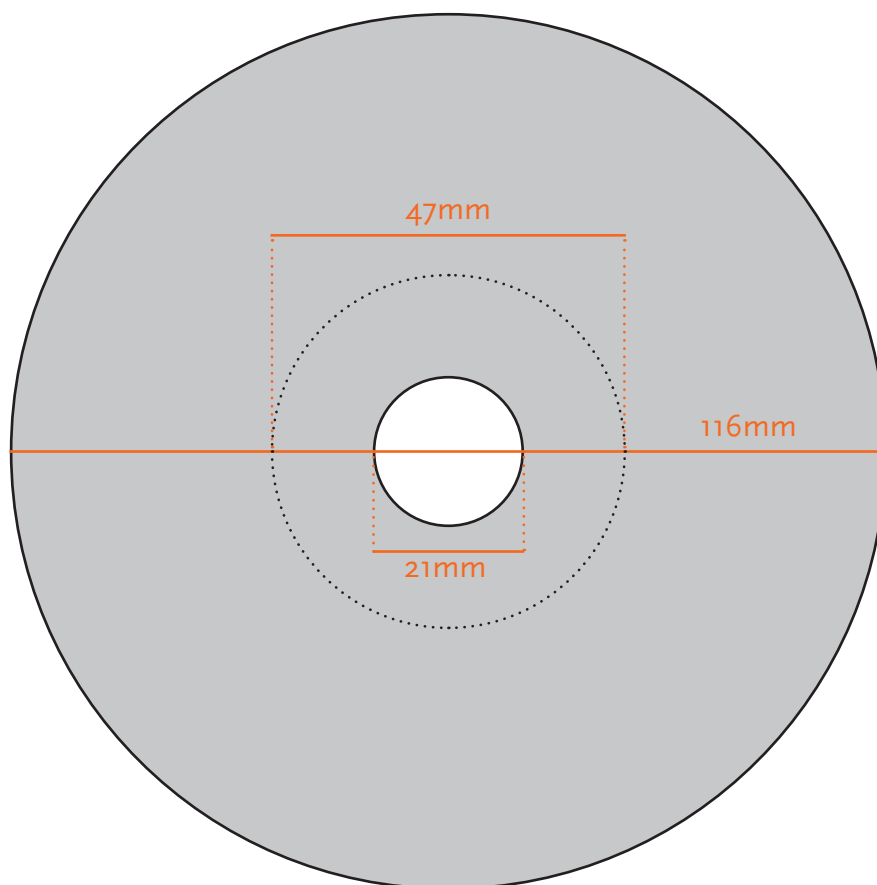

21 mm

Note:

Full color labels are offset printed. Therefore a white base is required.
For silkscreen labels there is no white base required. When no white base is printed, we recommend to use a 47mm inner circle. This is to avoid interference with text, logo's and images and the inner circle inscription.

Please find the related EPS and layout files attached to this PDF.
